Subsection 3: Advanced Usage

# Subsection 1: Concepts

This page demonstrates binding a previously created named destination. The destination 'dests/subsection1' was created before this page existed and is now bound to this location.

# Subsection 2: Implementation

This page shows how named destinations maintain stability when page numbers change. Even if pages are added or removed, the named destination 'dests/subsection2' will always point to this content.

Click on the table of contents link to return.

### Subsection 3: Advanced Usage

Named destinations can be referenced anywhere in the document, including in bookmarks, outlines, and from external documents. The hierarchical naming scheme 'dests/subsection3' allows for organized structure.
